## Education-Training

As part of the SERI program, CoSA has created a pool of electronic records education and training material for states and territories to utilize in the management of their electronic records programs. These materials include SERI Educational Webinars on current electronic records topics, materials and information created used for the SERI Electronic Records Institutes, and Self-Directed Training Modules on a variety of electronic records topics.

In addition to the materials produced directly by CoSA, the Education-Training section of the PERTTS Portal also includes Other Educational Opportunities made available through archives and records management organizations such as the Society of American Archivists, ARMA International, and the Library of Congress

-----  
Materials from the PERTTS Portal Workshop, held at the 2014 CoSA/NAGARA/SAA Annual Meeting can be found [here](#).

The PERTTS Portal has been made possible with the generous support of the [National Historical Publications and Records Commission](#), a Federal agency promoting the preservation and use of America's documentary heritage essential to understanding our democracy, history, and culture.
